

## TECHNICAL DESCRIPTION

### FIXINGS – CONNECTING GRATINGS

**Fixing clips are the usual way for fixing steel gratings.**

Standard Fixing clips consists of:

1. Universal upper part;
2. Universal bottom part;
3. Bolt M8 hexagon;
4. Nut M8 square.

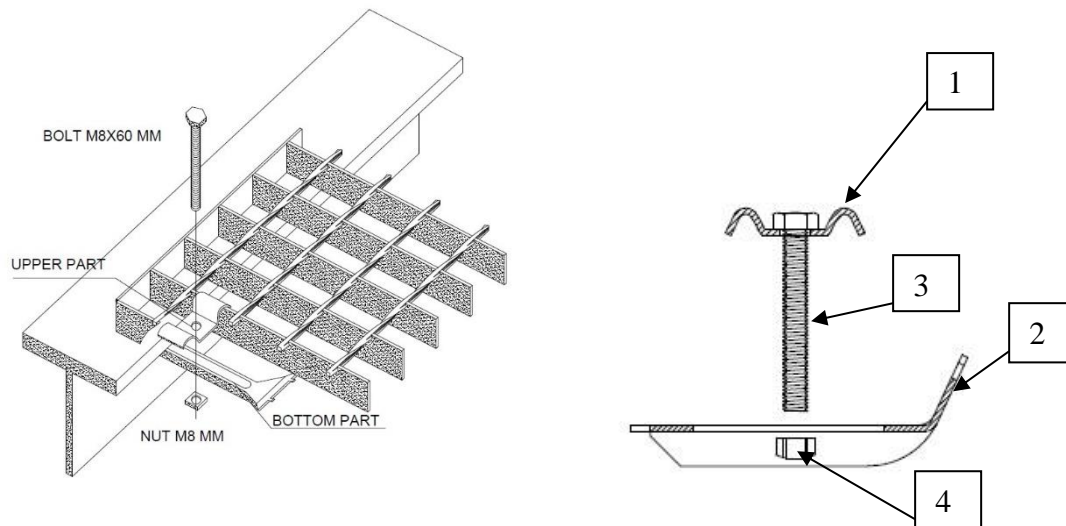

Upper and lower parts are made of structural steel acc. EN 10025 and hot-dip galvanized according to ISO 1461. Bolts and nuts are galvanized.

For one grating 1x1 m you need 4 fixing systems.

We have all types of Fixing clips to cover each particular grating mesh.

## FISA TEHNICA

### SISTEME DE FIXARE GRATARE

Un sistem de fixare gratare este compus din 4 elemente:

1. Partea superioara (clama);
2. Partea inferioara;
3. Surub M8;
4. Piulita patrata M8.

Partile superioara si inferioara ale sistemului de fixare sunt executate din otel pentru constructii S235JR conform cu EN 10025 si zincate la cald conform cu ISO 1461. Suruburile si piulitele sunt zincate.

Pentru un gratar 1x1 m sunt necesare 4 sisteme de fixare.

Avem sisteme de fixare pentru toate tipurile de ochiuri de gratare.
